

# CHAMONIX

FRANSCHHOEK VALLÉE DES VIGNERONS

---

We would like to showcase our award-winning wines in the vineyards where they are planted and grown. Our grapes are all harvested on the farm; the awards that we won are related to the soil and environment that we are privileged to grow our vines in. We will showcase mainly our premium wines to make you aware of the beauty of the farm as well as the high quality of our wines.

You will be driven to several vineyards, including the highest vineyard where we grow our Pinot Noir vines, a place I call Baboon “Koppie”. To establish this vineyard, several years of excavations, removing of growth, trees and forests and terracing for our Pinot Noir and Cabernet Franc vineyards. These 2 vineyards have become the exclusive producers of our top quality cultivars.

Some of our yields here can be minimal, where we produce only 2 barrels from the terraces and 4 barrels from the bottom, due to the mineral rich soil and altitude. The sun only starts shining on the terraced vineyards after 11am in the winter and 10am in summer.

We will drive you through the vineyards and fields and show you the game that we have on our wine farm. We have 80 animals on the farm, which are made up of wildebeest, zebra, eland, ostrich and springbuck, with giraffe to be added soon. Witness the magnificent wildlife up close as we are able to get the vehicles within close range to allow for fantastic viewing as well as photographs of the animals.

Enjoy the game drive and wine tasting on location, as well as all the features of the farm of which we are so proud.

I welcome all visitors to our new Wine and Game Drives on Chamonix.

Thank you for visiting us.
